AnyWARE Implements Next Generation Voice and Data Network for Prologic Technology Systems

February 14, 2006 Austin, Texas— AnyWARE Inc., an Austin-based telecommunications integrator, has been selected by Prologic Technology Systems, Inc. to deploy a new, enterprise-level VoIP telephony system that simplifies communications for the growing organization.

Austin-based Prologic, developers of enterprise class products designed to streamline procurement, human resource, and student accounting operations for school districts, selected AnyWARE to implement and tailor a telephony system that enables staff to access a robust enterprise-wide telephony network from any location; easily reconfigure options; and converge voice and email.

“Our organization is expanding and recently moved to accommodate growth. With the move, we realized it was time to update to a converged IP voice and data network,” said Jim Pepper, CEO, Prologic. “AnyWARE evaluated our needs and implemented a new VoIP system that allows our staff to seamlessly access the enterprise system regardless of whether they’re in a remote office or on the go.”

AnyWARE offers full telecommunications integration and specializes in providing all components of an enterprise-wide communications system, including Robust IP PBX’s from ShoreTel; a wide array of carrier services to provide companies with internet access, VPNs, ATM/Frame Relay, and voice services; and integrated customer premise equipment.

Prologic is headquartered in Austin, Texas and employs approximately 50 people in its Student, Finance and Development Divisions.

About Prologic Technology Systems, Inc.

Our products enable Texas school districts to benefit from centralized management of their business, staffing, and student management needs. These enterprise class products streamline procurement, Human Resource procedures, and student accounting operations, allowing school districts to benefit from increased efficiency, cost reduction, and reliable compliance. The backbone of the company is the exceptional knowledge of the employees in school district finances, procurement, and student accounting. Prologic is a Texas State Board of Public Accountancy approved vendor and a Texas Association of School Business Officials sponsor. For more information, please go to www.prologic-tech.com.

About AnyWARE, Inc.

AnyWARE offers customized telecommunications services for organizations relocating, expanding or seeking to upgrade to a converged IP voice and data network. AnyWARE provides organizations an alternative to “a la carte” services by integrating both telecommunications components and services to create cost-effective and dynamic solutions.

AnyWARE is HUB certified (Historically Underutilized Business) and a member of the Women's Business Enterprise National Council. For more information, please go to www.AnyWAREinc.com.
